

# HELP FILL IN THE GAPS OF YOUR CURRENT COVERAGE

## GET MORE PROTECTION

If you have a medical plan, you may also have a high deductible to pay before your coverage begins paying. Hospital Indemnity (HI) works with Critical Illness (CI) and Accident (AI) insurance plans to offer a cost-efficient way for you to fill in more of the financial gaps.

## HERE'S HOW IT WORKS

When you elect HI coverage with CI and AI, you maximize the protection you receive at the time of a covered illness or injury. There are **no** offsets and **no** restrictions on how the benefit amounts paid to you can be used, which means you can use the cash to cover those high deductibles – *and any other costs as well.*

## HERE'S HOW THEY INTEGRATE

In the event of a covered illness or injury, HI, CI and AI could each provide you with separate lump-sum cash benefits, helping to fill those financial gaps and easing the impact of unexpected medical costs for you and your family.

### RISING COSTS REQUIRE LAYERS OF PROTECTION

The average cost for a 3-day hospital stay is

**\$30,000<sup>1</sup>**

### Hospital Indemnity

- Provides a cash benefit for each day confined in a hospital for a covered illness or injury

### Critical Illness

- Provides lump-sum benefit upon diagnosis of a covered illness
- Includes cancer and vascular diseases

### Accident

- Flat benefit payments for related expenses and treatments
- More than 80 accidental injuries

### Medical

- High deductible health plans are important, but don't always cover everything

of Americans have less than \$100 in savings for medical expenses, and nearly half have less than \$1,000 saved.<sup>2</sup>

## A COMPLEMENT TO MEDICAL INSURANCE

When it comes to paying for medical care, your medical insurance plan plays a very important part, but there are also expenses associated with illness or injury that you will still be expected to cover.

The cash benefits provided by HI, CI and AI are independent from any claims or coverage provided by medical insurance. This cash can be used to help cover the bills or added expenses that your medical plan may not cover, like copays, deductibles or any other living expenses.

## YOUR BENEFICIARY CHOICE IS IMPORTANT

While not always top of mind, it's important to review and update your beneficiary information. It's quick and easy to update designations online. When you add or change a beneficiary, your designation becomes effective immediately. It takes less than five minutes and will give you peace of mind that you are taking care of the people who matter most. If this is your first time accessing The Hartford site, please follow the initial login instructions below.
